

## Here's a neat puzzle to color. It's called FEED ME!

I am a plant that eats flesh. I like ants, spiders, and juicy bugs. When an insect lands in my mouth — SNAP! I slam shut and trap the bug inside where it is slowly digested. Use a dark color to fill in the shapes that only have the letters F — E — E — D M — E. The leftover white spaces will show you what kind of predatory plant I am. HAVE FUN!
